JASON OLUIKPE

Computer Science Student | Aspiring Software Engineer

Ontario, Canada +1 (647) 545-6016 oluikpe.ebube@gmail.com linkedin.com/in/ebubeoluikpe

PROFESSIONAL SUMMARY

Fourth-year Computer Science student at Brock University seeking a software engineering internship. I build tools end to end, from a from-scratch Python IDE to a personal portfolio site, and I apply what I learn in class to real projects. Backed by work experience in fast-paced, high-volume environments, I bring reliability, high energy, and a strong customer-first mindset to every team.

TECHNICAL SKILLS

Languages & Frameworks: Python, NiceGUI, CSS

Core Concepts: Object-Oriented Programming, Code Modularity, GUI Development, Debugging, Virtual Environments (venv)

KEY PROJECTS

Better IDE | **Lightweight Python IDE Built from Scratch** *Python*

- Designed and built a full-featured Python IDE from scratch, applying object-oriented programming and modular design principles from coursework.
- Implemented advanced editing features including split-screen editing across two files, closable and re-openable tabs, autosave on idle/close, per-tab find, multi-line cursors, and keyboard-driven line moving.
- Added workspace and folder browsing, quick file opening, and an embedded terminal for running code and installing packages.
- Built an automated syntax checker for common errors and automatic virtual environment creation when none is detected.

Personal Portfolio Website *Python, NiceGUI, CSS*

- Designed and developed a dark, terminal-inspired portfolio site featuring a custom stylesheet, project demo videos, and an embedded customer-reviews widget.
- Organized the codebase into separate modular structures for content, components, pages, and configuration for effortless maintenance and updates.

EDUCATION

Bachelor of Computer Science — Brock University *In progress (4th year)*

Ontario Secondary School Diploma — Meadowvale Secondary School *2016 – 2020*

WORK EXPERIENCE

Crew Member — Aerosports Trampoline Park *St. Catharines, ON | 2025 – 2026*

- Delivered friendly, dependable service to guests and built a strong record of positive feedback and customer satisfaction.
- Hosted and coordinated birthday parties, efficiently checking in groups and assisting guests throughout their visit.
- Operated the Snack Shack register, handling cash transactions and processing high-volume orders accurately during peak hours.
- Prepared and served food following strict food-safety standards while monitoring activity courts to maintain a safe, fun environment.

Forklift Operator — PepsiCo *Mississauga, ON | 2022 – 2023*

- Operated a forklift to move pallets, shells, and inventory safely and efficiently in a high-volume warehouse during overnight shifts.
- Adapted quickly across five key departments: recycling, picking, docks, repack, and full goods.
- Maintained high accuracy and consistently followed safety procedures while performing under high-pressure conditions.

CORE STRENGTHS

Teamwork | Customer Service | Problem Solving | Cash Handling | Food Safety | Fast Learner | Adaptable | High Energy
